Filipe Bravo

Software Engineer

Lisbon, Portugal | +351 918 949 023 | filipe.abravo@gmail.com | LinkedIn: linkedin.com/in/filipe-bravo
GitHub: github.com/FypeiH | Portfolio: portfolio-filipebravo.vercel.app

PROFESSIONAL SUMMARY

Computer Engineering graduate with experience building web and mobile applications, REST APIs and internal tools. I work mainly with C#, .NET, ASP.NET Core, Angular, TypeScript and SQL Server, across the full stack from frontend to API and database. Looking for a software engineering team where I can contribute to quality products and keep growing technically.

PROFESSIONAL EXPERIENCE

Freelance Full Stack Developer, Effect, Remote | Sep 2026 – Oct 2026

- Built an internal leads and proposals reporting tool with ASP.NET Core Razor Pages and SQL Server, with filters and Excel export.
- Implemented lead identification by email or domain, with LLM integration to complete company data.

Web Developer Intern, Gigantic Digital Growth, Lisbon | Mar 2026 – Jun 2026

- Delivered client websites for brands across different industries in WordPress, building custom pages and components with Elementor.
- Implemented responsive layouts and content-driven UI updates.

Full Stack Developer, Altyra Solutions, Lisbon | Sep 2024 – Feb 2025

- Completed TakeFreeTours' scheduled email scraper (C#, Gmail API, SQL Server), turning booking confirmations from several platforms into validated, deduplicated visitor records.
- Built web and mobile features and REST APIs for client projects, on flexible hours alongside my degree.

Full Stack Developer Intern, Altyra Solutions, Lisbon | Mar 2024 – Aug 2024

- Built the frontend and REST API for TakeFreeTours' tour management system (Angular, .NET).
- Built the frontend and API for Benched, a multi-platform football app in .NET MAUI with a Blazor UI (C#).
- Integrated PayPal payments into a law firm's website (Angular, .NET), now in production.
- Worked with Tailwind CSS, Angular Material, Syncfusion and Azure DevOps (project management, CI/CD).

Frontend Developer Intern, OCR – Technology and Productivity, Lisbon | Mar 2021 – Jul 2021

- Customized ERP workflows and features in PHC Web and improved a logistics app built with Kalipso Studio.
- Fixed bugs, shipped feature updates and provided application support.

EDUCATION

Bachelor's Degree in Computer Engineering (completed, final grade 14/20), ISTEC, Lisbon | Oct 2024 – Aug 2026
Software engineering, networking and web development.

Higher Technical Diploma (CTeSP) in Mobile App Development, ISTEC, Lisbon | Sep 2022 – Aug 2024
Java, React Native and app design.

Vocational Diploma in IT Systems Management and Programming, ESGC, Lisbon | Sep 2018 – Jul 2021
Merit award; final project graded 20/20.

TECHNICAL SKILLS

Backend: C#, .NET, ASP.NET Core, Razor Pages, REST APIs, Gmail API, Node.js, Python
Frontend: Angular, TypeScript, Blazor, .NET MAUI, React, Next.js, Tailwind CSS, Angular Material, Syncfusion, HTML5, CSS3
Data: SQL, SQL Server
DevOps/Tools: Git, Azure DevOps, WordPress, Elementor, PHC Web

PROJECTS

- **Benched** (.NET MAUI, Blazor, C#): Football app to find players, teams and coaches, with competitions. Frontend and API. apps.apple.com/pt/app/benched/id6744754854
- **TakeFreeTours – Tour Management** (Angular, TypeScript, .NET, C#): Manages tours and guide teams with availability checks. Frontend and REST API.
- **TakeFreeTours – Email Scraper** (C#, .NET, Gmail API, SQL Server): Scheduled job that reads booking confirmations, validates and deduplicates the data, and stores it in SQL Server, cutting manual entry.
- **Crypto Trading Bot** (Python, CCXT, TA-Lib): Market analysis and automated order execution with custom trading logic. github.com/FypeiH/fidu-bot
- **Dynamic CV** (Angular, TypeScript, Tailwind CSS): This CV: bilingual app with ATS-friendly, text-based PDF export. github.com/FypeiH/CV
- **Portfolio** (Next.js, TypeScript, Vercel): Portfolio site with project case studies. portfolio-filipebravo.vercel.app
